

## ACTIVITIES

Whichaway Oasis camp is situated at the base of a 60m / 200ft ice fall on the Schirmacher Oasis, where the glaciers of the Antarctic Ice Sheet meet the sea ice of the Novolazarevskaya Nivi Ice Shelf. Surrounded by stunning rock and ice formations, guests are in the perfect location for exploration and adventure – or simply to relax and enjoy the peaceful solitude of the Great White Continent.

Our fully-qualified UIAGM guides lead activities at Whichaway Oasis at a pace that suits our guests. Whether it's ice-climbing and exploring the crystal caves, a 4x4 safari followed by yoga or relaxing in the library with a book, Whichaway is an inspiring escape from the hubbub of everyday life.

*\*There is no minimum fitness requirement for our activities; guests always have the final decision on which activities they wish to join.*

## NUNATAK

A proud nunatak, a mountain peak protruding out of the ice, offers a stark contrast to the glacier and is an astonishing location to spend a day trekking and abseiling.

ROCK CLIMBING

GLACIER TREKKING

ABSEILING

## CRYSTAL CAVES

The meltwater flows through tunnels and caves that will defy our guests' imagination.

The ancient ice, created over millennia, has so little air trapped within it that it turns blue – and is a perfect accompaniment to a cocktail!

## ICE TUNNELS

The seasonal meltwater carves a path through the ice waves, forming deep tunnels of iridescent blue ice at the base of the Oasis.

Exploring the tunnels is truly a magical experience.

### ARCTIC TRUCK SAFARI

Specially converted to Antarctic specifications, the Arctic Truck is in its element on the ice.

Our UIAGM guides will take guests on an exhilarating safari over the glacier, explaining how the glacier is formed and sharing stories from the area's rich history of exploration.

### ROPE WALK

On a hike that is as safe as it is spectacular, our guides lead our guests on an easy traverse across a 200ft cliff with an incredible view of the ice waves below.

### MINDFULNESS

Guests will love the stunning views across Whichaway Lake from our newly-built yoga pod, followed by a sauna or perhaps a drink on the terrace before dinner.

### ICE CLIMBING

With the help of Ice Axe and crampons guests can scale walls of ice that have been formed out of the glacier surrounding the Nunatak.

### CHAMPAGNE PICNICS

Our chefs prepare gourmet picnics for guests to enjoy between the day's activities.

### BLUE RIVERS

The cascading meltwater of the Antarctic spring flows through the ice waves below Whichaway Oasis, creating blue rivers that seem to have jumped straight out of the pages of a storybook.
