With only 12 guests on each adventure, our professional guides will ensure that you are always safe and well looked-after, and that you get the most out of your time.

Your activities can be as adrenaline-fuelled or relaxed as you like: not keen on climbing, fat biking or abseiling? Then perhaps a picnic followed by a sauna and a massage would suit. The choice is yours.

"The logistics that support this 12-guest refuge would test a space mission."

Between rugged mountain ranges and spectacular frozen waves of ice, our guides will expand your horizons and push you only as far as you want to go. Our philosophy is simple - do as much or as little as you like. After all, it's your adventure!

SCALE A VIRGIN SUMMIT

The Drygalski mountains are home to a handful of unclimbed peaks, a modern day rarity in today's world of exploration. We will traverse to the base of these mountains where our guides will have set up the camp for the expedition. After a night spent out on the glacier we will take advantage of the 24-hour sunlight and trek into the mountains to summit a peak where no human has stood before.

*"Mother nature's raw beauty was breathtaking. We interacted with her, trekking, climbing and venturing into the amazing tunnels of ice."
Marshal Bernes, Guest (2018)*

"Antarctica, the safest place to visit in 2020 and beyond."

YOUR SAFETY

For all its beauty, Antarctica can be a challenging environment, with low temperatures, strong winds and high altitudes. We believe the best way to protect you is through our staff and we are absolutely uncompromising about the experience and expertise of our people.

All our mountain guides have completed the strenuous 5-year UIAGM qualification, while each camp has its own fully-qualified trauma doctor and accompanying medical kits. Our chief pilot has 10 years of experience flying in Antarctica with over 18,000 hours of logged flight time.

Tracking, satellite communications and mutual Search & Rescue agreements are all part of White Desert's comprehensive safety policies. Furthermore, by operating our own aircraft, we also have the speed and flexibility to arrange an evacuation back to Cape Town in the unlikely event that one should become necessary.

ENVIRONMENT

White Desert believes that responsible tourism is a genuine force for good and supports Sir David Attenborough's stance on the transformative power of wilderness travel: *"No one will protect what they don't care about, and no one will care about what they have never experienced"*.

Camp - As a temporary eco-camp, our whole operation can be dismantled and removed without a trace.

Carbon neutral - White Desert was the first aviation operator in Antarctica to be entirely Carbon Neutral, a status the company has held since 2007.

Waste management - We keep waste to a minimum by repackaging all consumables before we bring them to Antarctica, while at the end of the season, all solid waste is shipped back to South Africa for recycling or responsible disposal.

FULL ITINERARY

DAY BEFORE DEPARTURE

White Desert will host a safety briefing in Cape Town. This is where we will check all your polar clothing and prepare you for your flight south.

DAY 1

We fly over thousands of icebergs on our 5-hour flight across the Southern Ocean to Antarctica. During the flight, we enter the Polar Circle and encounter the continuous daylight of the Antarctic summer.

After landing on the ancient blue ice of the runway, you will transfer to our camp at Whichaway and take a gentle hike around the Oasis.

DAY 2

Settle into Whichaway and do as much or as little as you like each day. Activities range from yoga, massages and gentle treks to exploring the incredible ice waves, summiting a nunatak, ice climbing and even abseiling!

On quieter days, you'll hear talks from our polar explorer staff about some of the lesser-known history of Antarctica and their world record-breaking expeditions.

DAY 3

Setting out early in the morning, we will fly to the Drygalski mountains and traverse by foot and Skidoo to the base of the Drygalski range. The 20km route will journey over glacier and across numerous Nunataks. Arriving in the early afternoon we will have time to take the scenery in and check equipment for the next day.

DAY 4

Summit Day. The journey to the summit will be through a dry valley carved out by the glacier and then up on to rocky ridge that travels to the peak. There, true essence of exploration is palpable, as no human has stood at this point before.

Return to basecamp where you will have a hearty meal and celebrate the achievement with a toast of champagne to celebrate such an achievement.

DAY 5

The return trip will be by foot and skidoo with a stop half way to put your ice climbing skills to the test. The wind scoops around the nunataks make for the perfect testing ground for new found ice climbing skills.

We fly 20minutes back to Whichaway where the evening is spent celebrating this special accomplishment.

DAY 6

We spend the day exploring the ice waves below our camp, delving into the series of ice tunnels that are as surreal as they are beautiful.

Then you'll be off on an Arctic Truck safari, winding your way through the snow and ice to an incredible vantage point where you can take in the panoramic view over the waves that you have just explored.

DAY 7

An adventurous hike along a winding cliff face affords guests stunning views over pressure ridges of ice that have been folded over millennia by the ocean.

Our world-class mountain guides will lead you on this challenging hike, ensuring your safety at all times.

DAY 8

The flight out of Antarctica will be the last of your enduring memories of the great White Continent before you dive back into the vibrant energy of Africa. You will be transferred to your hotel where you will have a chance to relax and reflect on your Antarctic adventure!

This itinerary is entirely subject to weather conditions in Antarctica and is meant as a day-by-day guide of what guests can expect. Exact dates and types of plane may vary.
