WOLF'S FANG RUNWAY

Our runway is overlooked by one of the most magnificent and iconic mountains on the entire continent, named 'Wolf's Fang' by the early Norwegian explorers. After landing on the ancient blue ice, you will be surrounded by massive monoliths of rock that rise vertically from the glacier.

As part of our responsibility towards conserving Antarctica, all emissions from our operations, including all flights to, from and within the continent, are offset by fully-accredited carbon-neutral schemes.

EMPEROR PENGUIN COLONY

Your visit to the penguins begins with a 2.5 hour flight to Atka Bay, the site of the first episode of Sir David Attenborough's groundbreaking documentary *Seven Worlds, One Planet*. Because we fly to the colony, we have exclusive access to see the penguins early in their life-cycle and you can see over 14,000 breeding pairs and their newly-hatched chicks. This spectacle is full of noise and energy; a favourite with wildlife watchers and photographers alike.

There are so few visitors to this colony that the chicks are unafraid of humans and often waddle close by. Mindful of our responsibility to the Antarctic environment and of IAATO guidelines, we keep at least 5m (16.4ft) from the penguins while taking in all the sights and sounds of this rare wildlife spectacle, which remains one of the greatest thrills on Earth!

*"What a privilege to witness this wildlife phenomenon.
The Emperor Penguins are almost mystical, it was incredible."
Rina Tham, Author of internationally published Lucky Number 9*

During the long dark winter, the mothers hunt for food while the fathers look after the egg. When spring returns, the egg hatches and the chick sits on its parents' feet to stay warm.

RESPONSIBLE LUXURY LIFESTYLE

“The activities are as seemingly endless as the days (there’s 24 hours of sunshine here) — try ice climbing or fat biking, hike to the summit of nearby peaks, or venture out on an overnight ski tour, all under the care of expert guides.”

Forbes

"Antarctica, the safest place to visit in 2020 and beyond."

YOUR SAFETY

For all its beauty, Antarctica can be a challenging environment, with low temperatures, strong winds and high altitudes. We believe the best way to protect you is through our staff and we are absolutely uncompromising about the experience and expertise of our people.

All our mountain guides have completed the strenuous 5-year UIAGM qualification, while each camp has its own fully-qualified trauma doctor and accompanying medical kits. Our chief pilot has 10 years of experience flying in Antarctica with over 18,000 hours of logged flight time.

Tracking, satellite communications and mutual Search & Rescue agreements are all part of White Desert's comprehensive safety policies. Furthermore, by operating our own aircraft, we also have the speed and flexibility to arrange an evacuation back to Cape Town in the unlikely event that one should become necessary.

ENVIRONMENT

White Desert believes that responsible tourism is a genuine force for good and supports Sir David Attenborough's stance on the transformative power of wilderness travel: *"No one will protect what they don't care about, and no one will care about what they have never experienced"*.

Camp - As a temporary eco-camp, our whole operation can be dismantled and removed without a trace.

Carbon neutral - White Desert was the first aviation operator in Antarctica to be entirely Carbon Neutral, a status the company has held since 2007.

Waste management - We keep waste to a minimum by repackaging all consumables before we bring them to Antarctica and then, at the end of the season, shipping all solid waste back to South Africa for recycling or responsible disposal.

Robb Report

"A trip down south to the Seventh Continent is intense — which is something the Antarctica experts at White Desert know well."

● White Desert team

ABOUT WHITE DESERT

White Desert was founded in 2005 by husband and wife team Patrick & Robyn Woodhead, who hold four exploration world records between them. When White Desert began, visitors reached Antarctica almost exclusively by cruise ship, limiting them to the Antarctic Peninsula and its coastline. Instead, Patrick and Robyn wanted to introduce guests to the deep interior of the continent while offering them a level of hospitality and comfort more akin to a high-end Africa safari than a rugged polar expedition.

Receiving its operating permit from the British Foreign, Commonwealth & Development Office (FCDO), the company has grown year-on-year and is now comprised of 70 staff of 17 different nationalities during season, providing a unique and highly specialised skillset.

Antarctic travel is the only thing White Desert does. It's our passion, it's our mission and it's in our DNA.
