

BEST OF BOTH

ECHO AND WHICHAWAY

A UNIQUE ITINERARY

For the first time in our 20 year history, we are offering the chance to experience both our camps – WHICHAWAY and ECHO – in a single 8-day journey.

So often, we are asked how to choose between the two, given that both are exceptional places to stay, yet situated in completely different environments. Whichaway is dramatic and luxurious; Echo otherworldly and unique.

Now, there is the **BEST Of BOTH** itinerary! Places are limited to only 12 clients in each camp. As part of the experience, we will fly to the lowest point on Earth – the Geographic South Pole – and also into some little-explored mountains that are truly surreal in form.

This combination trip allows guests to experience the ‘Blue River’ of Whichaway, where the iridescent colour of the water is simply dazzling. There is also the ‘Crystal Cave’ where hexagonal chandeliers of ice cascade across the ceiling.

Guests will also head to Echo Base, situated in the mountains. Pitted walls of rock break through the ice cap, creating a perspective so bizarre that astronaut Buzz Aldrin said it looked more like the surface of the moon than anything on earth.

DAILY ACTIVITIES

As guests to both camps, you will experience our entire range of activities on ice, from ice climbing to casual glacier treks and walks across frozen ice waves, as well as our latest addition to Whichaway, the Wellness Dome! Kindly keep in mind that flexibility is key for this itinerary, including the number of nights per camp, as the weather plays a role in determining our flight schedule.

WHICHAWAY

Our Flagship Luxury Camp

Nestled deep within the glacial landscape of Antarctica, lies a true oasis of luxury and adventure. Whichaway is encircled by an enormous cliff made of iridescent blue ice and features seven cutting-edge polar domes with spacious bedrooms that are elegant and warm. When lying in bed, the full-length glass doors offer a perfect view, while each room has its own full ensuite facilities.

The communal pods are interlinked and invite an atmosphere of relaxed calm. A circular dining room with fur seats gives the impression it has just come from the set of Game of Thrones, while the library and lounge are wonderfully inviting for cocktails or simply reading a book. New to Whichaway this season is a glass Wellness Dome, which provides a place for morning yoga and mindfulness in a warm and comfortable space.

ECHO BASE

Inspired by astronauts. Used by explorers.

Echo is utterly unique. Stepping into the camp feels like entering a galaxy far, far away...

Spires of rock pierce the glacial landscape, towering straight into the air. Surrounded by some of the planet's most spectacular scenery, Echo's distinctive 'Sky Pods' are equipped with expansive floor-to-ceiling windows, connecting you to the landscape outside, in style and comfort.

The 'Cosmos', our central hub, comprises the lounge, library and dining and shower rooms. We offer guests a chance to savour sophisticated yet unpretentious meals, decompress with a glass of champagne while enjoying views in all directions or lose oneself within the infinite space of the Anthony James art installation.
